ABOUT ME

Technical Skills: Java, C, SQL, HTML, CSS, Python.

Platform: Windows, Linux.

TRAINING

MOBILE APPLICATIONS DEVELOPMENT USING JAVA

- License SVT-18-488

GOOGLE INDIA CHALLENGE SCHOLARSHIP

- 2018 Recipient, from Udacity.

PROJECTS

Online Live HTML/CSS/JS Editor

- Created an online HTML/CSS/JavaScript live editor using ace editor cdn(content delivery network) for syntax highlighting and deployed in heroku.

Music Player

- Created a fully featured music player android app which works offline and scans songs from phone memory or memory card and plays the selected song, plus repeat and shuffle options with the support of notification which also works from the lock screen.

Login Authentication

- Created an android app with the help of Google's firebase which supports OTP to login into an account and shows the phone number as user-id and also log out/sign-out button to go to the main activity.

Auto-login Bot

- Created a bot to login local internet provider's website, on clicking the .exe file it automatically fills login credentials opening internet explorer in a split second.

EDUCATION

B.Tech in Computer Science and Engineering
